

# **REDLINE LOGISTIX**

**ONE TEAM. NO LIMITS**

---

## ***Redline Logistix: December 2025 Newsletter***

We welcome back Redline Freight with a new overhaul and rebranding, now called Redline Logistix. We are aiming for a friendly, family feel towards virtual trucking, with this new vision and rebranding we kicking it all off with a new discord server at the heart of our operations as well as some new logos and designs in mind for trucking.

Our plans moving forward, step by step. We plan to bring in 2 new partners by the end of December, bringing them into the new year with us and aiming for success. We will then be hosting monthly partner and everyone convoys where anyone, regardless of VTC can rep their VTC and attend. Driver convoys will occur once a week minimum, as we want to keep a close net between everyone to ensure stability. After some success we then want to bring in a completely overhauled website and trucking hub.

Us as the senior management team are planing to lead with a iron fist to really bring back the VTC we once had. We are looking for dedicated leadership, management and events staff who are wanting to see and be apart of the progression of Redline Logistix.

Kind Regards,
